Sound/Stage Floor project:

Scott said the sound would get done by 'The Stupid Economy'. At that point, the sound can be operated from the sound booth or the stage, if the act has their own equipment they wish to plug in.

We still need a larger opening for the sound/light booth. The best arrangement would be one large opening or two smaller holes. The later would be cheaper and probably easier due to the construction of the sound booth. We'd need lockable roll down doors cut to shape the opening(s) to close the windows when not needed.

Cheryl Schmieder will start conversations with Howard Crofoot about cutting this opening. Dick Davies will join into the conversation when time allows.

Dick Davies anticipates the floor will be done in January 2014.
